

Lösar

because I am Tibetan

www.ihearttibet.org

Dear Ambassador

I stand with the Tibetan people in marking Losar, the Tibetan New Year, and the beginning of the lunar year 2137 - the year of the Iron Tiger.

After half a century of living under the tyranny of the Chinese government, Tibetans everywhere hope that Losar will be a time for change, hope and renewal. It is the Losar wish of everyone who loves Tibet that the year of the Iron Tiger will see an end to China's brutal occupation.

I urge you to immediately commit to a just and lasting resolution to the Tibet issue, which is the only way to bring peace and stability to Tibetan and Chinese peoples alike.
