

Lösar

because I am Tibetan

www.ihearttibet.org

Dear.....,

Losar Tashi Delek! I send you this traditional Tibetan greeting for Losar, the lunar Tibetan New Year, and my sincere hope that – with your help – the year of the Iron Tiger will see significant improvements in the situation in Tibet and progress towards an end to China’s brutal occupation.

Losar is traditionally a time for hope, change, and renewal. The Losar wish of everyone who loves Tibet is that the year of the Iron Tiger will bring an end to the suffering and loss in Tibet, so that Tibetans can live in peace and freedom.

I appeal to you to take concrete action in support of a just and lasting resolution for the Tibetan people this coming year.
